

Big Data Certification Training

HCIA-Big Data Training

Training Path

1	HCIA-Big Data Training	
	Lecture,Practice	5.0 days

Target Audience

Big data practitioners

Big data related industry practitioners

Prerequisites

- Have basic knowledge of Linux.
- With IT project experience.
- Have Hadoop basics.

Objectives

On completion of this program, the participants will be able to:

- Master the principles of big data components
- Master the usage of big data components

Training Contents

HCIA-Big Data Training

- Big Data Industry and Technological Trends
 - Big Data Era
 - Big Data Application Scope
 - Opportunities and Challenges in the Big Data Era
 - Huawei Big Data Solution
- HDFS - Hadoop Distributed File System
 - HDFS Overview and Application Scenarios
 - Position of HDFS in FusionInsight HD
 - HDFS System Architecture
 - Key Features
- MapReduce - Distributed Off-line Batch Processing and Yarn - Resource Negotiator
 - Introduction to MapReduce and YARN

- Functions and Architectures of MapReduce and YARN
- Resource Management and Task Scheduling of YARN
- Enhanced Features
- Spark2x - In-memory Distributed Computing Engine
 - Spark Overview
 - Spark Principles and Architecture
 - Spark Integration in FusionInsight HD
- HBase - Distributed NoSQL Database
 - Introduction to HBase
 - Functions and Architecture of HBase
 - Key Processes of HBase
 - Huawei Enhanced Features of HBase
- Hive - Distributed Data Warehouse
 - Introduction to Hive
 - Hive Functions and Architecture
 - Basic Hive Operations
- Streaming - Distributed Stream Computing Engine
 - Introduction to Streaming
 - System Architecture
 - Key Features
 - Introduction to StreamCQL
- Flink – Stream Processing and Batch Processing Platform
 - Flink Overview
 - Technical Principles and Architecture of Flink
 - Flink Integration in FusionInsight HD
- Loader - Data Transformation
 - Introduction to Loader
 - Loader Job Management
- Flume - Massive Logs Aggregation
 - Flume Overview and Architecture
 - Key Characteristics of Flume
 - Flume Applications
- Kafka - Distributed Message Subscription System
 - Introduction to Kafka
 - Architecture and Functions of Kafka
 - Key Processes of Kafka
- Zookeeper - Cluster Distributed Coordination Service

- Introduction to ZooKeeper
- Position of ZooKeeper in FusionInsight
- System Architecture
- Key Features
- Relationship with Other Components
- FusionInsight HD Solution Overview
 - FusionInsight Overview
 - FusionInsight Features
 - Success Cases of FusionInsight

Duration

5 working days

Class Size

Max 16
